

SAN LUIS WATER DISTRICT

POOL 2

2025 RESCHEDULABLE INTO 2026 WATER YEAR

Supplemental Water Application

Closing Date-June 10, 2025

This application is to request Supplemental Water that is eligible to be rescheduled into the 2026 Water Year. Although the District cannot guarantee acquisition of the requested supply, we will make every effort to do so. The Supplemental Water program is administered in accordance with the District's Rule No. 11, which is available upon request. Following are some key elements applicable to every Application:

1. Applications must include a quantity, account number, signature, and be accompanied by a \$50 per acre-foot of request deposit.
2. If the District is unable to acquire the entire requested quantity of Supplemental Water, the supply will be allocated on a pro-rata base, based on acreage owned and/or leased by the applicant.
3. Upon written request, this Application may be modified or revoked. The deposit associated with a withdrawn Application will be returned at the end of the water year providing the District has not yet taken action to acquire water in reliance upon the application. Once the District has taken action to secure water in reliance on applications, applicants are obligated to purchase the Supplemental Water unless the District or Applicant can find another buyer.
4. Pool 2 water will be invoiced with a due date of February 10, 2026. If payment is not received by the due date, there will be a 5% penalty plus interest charged.
5. 2025 Pool 2 Supplemental Water **cannot** be transferred outside of the District and is subject to additional delivery charges.
6. Upon Board approval, a portion of the cost may include an amount for the Supplemental Water Development Charge Policy No. 3003 which is available upon request.
7. Subject to proration, Supplemental Water could be allocated in increments as it becomes available in the San Luis Reservoir.
8. 2025 Pool 2 Supplemental Water will be rescheduled into 2026 and will incur a rescheduling fee. **IMPORTANT** – The 2025 Pool 2 Supplemental Water is one of the lowest priority water types and has a higher/greater risk of spill should San Luis Reservoir fill.
9. 2025 Pool 2 Supplemental Water is NOT CVP allocated water and can be rescheduled IN ADDITION TO (on top of) the CVP allocation cap of 0.21 AF/acre.

I hereby request the quantity of Supplemental Water at the price specified below. I have read and understand the provisions set-forth in this Application. I recognize that the price stated below is an estimate and I am willing to pay for the acquisition of Supplemental Water based on its actual cost which may be higher or lower than the amount listed below, and this price does not include any applicable charges for conveyance, operation and maintenance (O&M), or administration. I am familiar with the District's By-laws, Rules & Regulations, and Policies which may be amended or supplemented from time to time by the District's Board of Directors. At all times, and as a condition to the availability of Supplemental Water to me from the District, I agree to be bound by and comply with the District's By-laws, Rules & Regulations, and Policies as they may be amended or supplemented from time to time.

Quantity Requested: _____AF Enclosed Deposit (AF x \$50/AF): \$_____

Estimated Price per acre-foot subject to adjustment based on actual cost exclusive of Authority and District charges:
\$385.00/AF
